

Policy Regarding COVID-19 (9/4/2020)

Our dedication to the families we serve and our community remains to be our priority. In an effort to continue adhere to the executive order that has been set by Governor Hogan, starting at 5 p.m. on Friday, September 4, 2020, we can open facilities to 75% capacity for both funerals and visitations, also making sure social distancing is being met.

With this being stated, we are willing to accommodate a maximum of 75 people in any of our funeral home locations. We will practice and maintain social distancing by our placement of chairs. Our facilities are considered public and thus wearing a mask is still required.

For any families who are not comfortable having this number in attendance, we are currently able to offer live streaming of funerals.

If the cause of death is from or suspected to be from the Coronavirus (COVID-19) and immediate cremation is being considered we place an emphasis on photo identification only, but can certainly talk about other options.

We invite any questions and will continue to provide your family with ways to honor your loved one, while keeping your family safe. We ask for understanding and cooperation as new guidelines arise, while we anticipate this pandemic coming to an end.

Our priority is helping and serving families in their time of need and we are here all hours of the day to assist you.

Thank you!

The Hartzler Funeral Home Staff
